About the Author: Jackie Bolen

I taught English in South Korea for a decade to every level and type of student and I've taught every age from kindergarten kids to adults. Most of my time centered around teaching at two universities: five years at a science and engineering school out in the rice paddies of Chungcheongnam-Do, and four years at a major university in Busan where I taught high-level classes for students majoring in English. These days, I live in Vancouver, Canada where I teach privately as well as in English language academies. In my spare time, you can usually find me outside surfing, biking, hiking, or on the hunt for the most delicious kimchi I can find.

In case you were wondering what my academic qualifications are, I hold a Master of Arts in Psychology. During my time in Korea, I've successfully completed both the Cambridge CELTA and DELTA certification programs. With the combination of almost 15 years teaching ESL/EFL learners of all ages and levels, and the more formal teaching qualifications I've obtained, I have a solid foundation on which to offer teaching advice. I truly hope that you find this book useful and would love it if you sent me an email with any questions or feedback that you might have—I'll always take the time to personally respond.

If you can't get enough ESL conversation questions in this book, you can get even more goodness delivered straight to your inbox every week. I promise to respect your privacy—your name and email address will never be shared with anyone for any reason. Sign-up here.

How to Use this Book

In this book, you'll find 67 conversation topics suitable for English learners, each with a set of 15 engaging, interactive questions that'll get students talking. They are designed for intermedate or advanced ESL/EFL students who already have a good range of vocabulary. However, they could certainly be used with high-beginners with some teacher assistance in terms of understanding the questions and pre-teaching of vocabulary.

This book is perfect for those situations when you want to get an interesting discussion going but are out of inspiration. Keep a copy on your phone to pull out in case you need some fresh, new ideas. They're ideal for a warm-up or for a longer, free-talking time at the end of a themed lesson.

Also consider getting the physical version of the book to print off these conversation questions for your students. It's the perfect solution to a last-minute class that you haven't had time to prep for! Or for classes where students want to do lots of free-talking, including private lessons. Avoid the chit-chat about the usual things and instead opt for something more interesting (one of the topics in this book).

Whatever the case, these TEFL conversation questions will get students talking, guaranteed!
